The Edmonton Real Estate Board cautions that the average residential price is a useful figure only for establishing trends and comparisons over a period of time. It does not indicate an actual price of a home due to the wide selection of housing stock available. Movements in sale prices should not be interpreted as changes in the cost of a standard home. the median price, the middle figure taken from the current list of all selling prices, is more indicative of activity in a specific time frame, eg. one month.

These figures are generated on the last day of the month. Any sales reported after that date will be reflected in the next month's year to date totals.

Sales reported above represents only the larger markets within the greater Edmonton area
